

# POWER CANE

Smart Energy. Strong Support.

[power-cane.com](http://power-cane.com)

# INTRODUCTION

PowerCane is a groundbreaking smart climbing cane that blends mobility with clean energy generation. Designed for hikers, tourists, and individuals with visual impairments, it transforms into a compact generator that charges your devices using your movement or water flow. Adventure-ready, eco-friendly, and user-first.

A circular inset image showing a person in a blue jacket standing on the edge of a snow-capped mountain peak, looking out over a vast mountain range under a warm, orange-hued sky at sunset or sunrise.

# OUR FEATURES

- **Modular Design** – Easy to detach, assemble, and carry
- **Built-in Generator** – Convert movement into electricity
- **5000 mAh Battery** – Store and use energy on the go
- **Smart App** – Monitor energy, track usage, and get alerts
- **Eco-Friendly Materials** – Durable aluminum and carbon fiber
- **Safety First** – Emergency alert button, anti-slip tip, and reflectors

# OUR PRODUCT ADVANTAGE

- Mobility + Energy in One
- Generates power from walking and water flow
- Lightweight and portable with waterproof turbine
- Reliable power source in remote locations
- Designed with real user feedback for maximum comfort and utility
- Helps reduce reliance on traditional power sources
